

Java

```
class Solution {  
    public int findLeastNumOfUniqueInts(int[] arr, int k) {  
  
    }  
}
```

JavaScript

```
/**  
 * @param {number[]} arr  
 * @param {number} k  
 * @return {number}  
 */  
var findLeastNumOfUniqueInts = function(arr, k) {  
  
};
```

C++

```
class Solution {  
public:  
    int findLeastNumOfUniqueInts(vector<int>& arr, int k) {  
  
    }  
};
```

C#

```
public class Solution {  
    public int FindLeastNumOfUniqueInts(int[] arr, int k) {  
  
    }  
}
```
